

K-LOVE is the ONLY radio station that my family listens to. If you allow LPFM stations to override the great contribution that K-LOVE makes to this community, it would be a tragedy. We do not have any other station of that type in this area. The ONLY way we recieved this wonderful station is by virtue of their national coverage. I cannot tell you how many of my friends and peers also listen to this station and, also, talk about how great the message that K-LOVE gives contributes to the betterment of their families. I believe this station is among the greatest contributions to our quality of life and I would be devastated if it were taken off the air. This is a matter of public interest and I implore you to allow it to continue. Thank you.
